JOBS/RECRUITING:

- **West Virginia University**
Position: [Assistant/Associate Professor – Engineering & Mineral Resources-11974](#)
Brief Description: The Department of Chemical and Biomedical Engineering at West Virginia University invites applications for tenure-track positions at the rank of Assistant or Associate Professor depending upon qualifications. Candidates must have research expertise in one or more of the following areas (1) process systems engineering, including artificial intelligence techniques, and/or computations with an emphasis in energy systems, (2) catalysis, catalytic materials, and/or reaction engineering in the area of energy systems (3) materials processing (including polymeric materials and/or biomaterials) for synthetic sustainable applications.
- **National Institute of Health (NIH)**
Position: [Development Positions](#)
Brief Description: The Formulation & Stability group at the Vaccine Production Program (VPP/VRC/NIAID) at the National Institutes of Health is actively recruiting to fill both entry and mid-level formulation development positions. The person filling this position will be part of a dynamic and motivated team working on the characterization, formulation and development of multiple types of biologic vaccine candidates, including virus-like Particles, monoclonal antibodies, and protein nanoparticles.

Available positions can be found on the Chemical & Biomolecular Engineering [opportunity website](#), so be sure to check it regularly.
