SEMINAR SERIES

2021

09/17

09/24

10/29

11/19

12/03

SEP 17

10-11:00 am
Colburn Lab
Room 102

HUIMIN ZHAO

University of Illinois at Urbana-Champaign
Steven L. Miller Chair of Chemical & Biomolecular Engineering

Synthetic Biology: Putting Synthesis into Biology

SEP 24

10-11:00 am
Colburn Lab
Room 102

STACEY FINLEY

University of Southern California
*Gordon S. Marshall Early Career Chair
Associate Professor of Biomedical Engineering*

Mechanistic Modeling of Immune Cell Activation in Cancer

OCT 29

10-11:00 am
Colburn Lab
Room 102

ALLAN P. COLBURN MEMORIAL LECTURE

MATTHEW PANZER

Tufts University
Professor of Chemical & Biological Engineering

B.S. ChE., University of Delaware, 2002

Design of Polymeric Scaffolds for Nonaqueous Ionogel Electrolytes

NOV 19

10-11:00 am
Colburn Lab
Room 102

KURT WOHL MEMORIAL LECTURE

JINGGUANG CHEN

Columbia University
Department Chair and Thayer Lindsley Professor of Chemical Engineering

Chemical Engineering Approaches for Catalytic Reduction of CO₂

DEC 03

10-11:00 am
Colburn Lab
Room 102

JACINTA CONRAD

University of Houston
Frank M. Tiller Professor of Chemical & Biomolecular Engineering

Nanoparticle Transport in Crowded, Confined Media
