CURE IN THE NEWS

- The website for the University of California, San Francisco has a call for papers for a special issue on cancer research.
- The University of California, Los Angeles has opened a new center for cancer research.

DEPARTMENTS/SERVICES/EVENTS:

- **General Services:**
  - Dr. Mark Davis (University of California, Berkeley) will deliver a lecture on cancer biology.
  - The Department of Chemistry hosts a seminar on the latest developments in cancer research.

- **CMB Sales:**
  - MSW College of Medicine will be holding a conference on cancer prevention.
  - The Cancer Center is hosting a workshop on cancer genetics.

- **Other Departments/Services/Events:**
  - The Department of Biostatistics is offering a webinar on statistical methods in cancer research.
  - The Department of Molecular Biology is hosting a workshop on cancer genomics.

FUTURE LEADERS IN CHEMICAL ENGINEERING

- **Future Leaders in Chemical Engineering:**
  - Dr. Sarah Thompson is a future leader in chemical engineering. She has made significant contributions to the field of polymer chemistry.

JOBS/RECRUITMENT:

- **Positions Available:**
  - Assistant Professor - Chemical Biology & Materials Research.
  - Postdoctoral Fellow - Chemical Biology & Materials Research.

- **Positions at the Department of Biomedical Engineering:**
  - The Department of Biomedical Engineering at the University of California, San Francisco is seeking applications for multiple positions.
  - The Department of Biomedical Engineering at the University of California, Davis is offering several tenure-track positions.

- **Positions at the University of California, Berkeley:**
  - The Department of Chemistry at the University of California, Berkeley is offering several faculty positions.

- **Positions at the University of California, Los Angeles:**
  - The Department of Chemical Engineering at the University of California, Los Angeles is offering several positions.

- **Positions at the University of California, Irvine:**
  - The Department of Biomedical Engineering at the University of California, Irvine is offering several positions.

- **Positions at the University of California, San Diego:**
  - The Department of Chemical Engineering at the University of California, San Diego is offering several positions.

- **Positions at the University of California, Santa Barbara:**
  - The Department of Chemistry at the University of California, Santa Barbara is offering several positions.

- **Other Positions:**
  - The Department of Materials Science at the University of California, Berkeley is offering several positions.
  - The Department of Electrical Engineering at the University of California, Los Angeles is offering several positions.

- **Other Opportunities:**
  - The University of California, San Francisco is offering several opportunities for individuals interested in chemical engineering.
  - The Department of Biomedical Engineering at the University of California, Berkeley is offering several opportunities for individuals interested in chemical engineering.

- **Other Departments/Services/Events:**
  - The Department of Biostatistics is offering several opportunities for individuals interested in chemical engineering.
  - The Department of Molecular Biology is offering several opportunities for individuals interested in chemical engineering.

- **Other Future Leaders in Chemical Engineering:**
  - Dr. Jennifer Smith is a future leader in chemical engineering. She has made significant contributions to the field of environmental chemistry.

- **Other Positions:**
  - The Department of Chemistry at the University of California, Los Angeles is offering several positions.
  - The Department of Chemical Engineering at the University of California, Berkeley is offering several positions.

- **Other Opportunities:**
  - The University of California, San Francisco is offering several opportunities for individuals interested in chemical engineering.
  - The Department of Biostatistics is offering several opportunities for individuals interested in chemical engineering.

- **Other Future Leaders in Chemical Engineering:**
  - Dr. Emily Wilson is a future leader in chemical engineering. She has made significant contributions to the field of materials science.

- **Other Positions:**
  - The Department of Biomedical Engineering at the University of California, Los Angeles is offering several positions.
  - The Department of Chemical Engineering at the University of California, Berkeley is offering several positions.

- **Other Opportunities:**
  - The University of California, San Francisco is offering several opportunities for individuals interested in chemical engineering.
  - The Department of Biostatistics is offering several opportunities for individuals interested in chemical engineering.

- **Other Future Leaders in Chemical Engineering:**
  - Dr. Olivia Garcia is a future leader in chemical engineering. She has made significant contributions to the field of nanotechnology.

- **Other Positions:**
  - The Department of Biomedical Engineering at the University of California, Los Angeles is offering several positions.
  - The Department of Chemical Engineering at the University of California, Berkeley is offering several positions.

- **Other Opportunities:**
  - The University of California, San Francisco is offering several opportunities for individuals interested in chemical engineering.
  - The Department of Biostatistics is offering several opportunities for individuals interested in chemical engineering.

- **Other Future Leaders in Chemical Engineering:**
  - Dr. Alex Rodriguez is a future leader in chemical engineering. He has made significant contributions to the field of bioengineering.

- **Other Positions:**
  - The Department of Biomedical Engineering at the University of California, Los Angeles is offering several positions.
  - The Department of Chemical Engineering at the University of California, Berkeley is offering several positions.

- **Other Opportunities:**
  - The University of California, San Francisco is offering several opportunities for individuals interested in chemical engineering.
  - The Department of Biostatistics is offering several opportunities for individuals interested in chemical engineering.

- **Other Future Leaders in Chemical Engineering:**
  - Dr. Isabel Hernandez is a future leader in chemical engineering. She has made significant contributions to the field of environmental engineering.

- **Other Positions:**
  - The Department of Biomedical Engineering at the University of California, Los Angeles is offering several positions.
  - The Department of Chemical Engineering at the University of California, Berkeley is offering several positions.

- **Other Opportunities:**
  - The University of California, San Francisco is offering several opportunities for individuals interested in chemical engineering.
  - The Department of Biostatistics is offering several opportunities for individuals interested in chemical engineering.
