CBE Seminar Series

- "Quantum biology in the study of the developmental mechanisms of reversible and irreparable traits"
- "Albion C. Culberson Memorial Lecture: "Defining a Chemical Engineer""
- "Dr. Joseph Conrad of University of Colorado: "The Role of Chemistry in the Development of Life""

FUTURE LEADERS IN CHEMICAL ENGINEERING

- "Lilly" offers various internship programs both for undergraduate and graduate students and even postdoctoral opportunities. One of those opportunities is through the Medicine in the Community Outreach Program (MCP). The MCP at Lilly is open to all Lilly employees and is designed to address unmet medical needs in underserved communities.
- "CompletableFuture" provides a series of workshops and seminars to help students develop the critical skills they will need to succeed in their careers.
- "Fall 2020 Internship Program" seeks talented and motivated individuals to work in a variety of fields, including research, engineering, and business.
- "Autumn Arch" offers a wide range of internships and positions in various industries, including healthcare, technology, and finance.

OTHER DEPARTMENTS SEMINAR/EVENTS:

- "Mathematics Department Seminar: "Probabilistic and Stochastic Processes Seminar""
- "Materials Science and Engineering Seminar: "Materials Science and Engineering Seminar""
- "Materials Science and Engineering Seminar: "Materials Science and Engineering Seminar""
- "Mechanical Engineering Seminar: "Mechanical Engineering Seminar""
- "Biomedical Engineering Seminar: "Biomedical Engineering Seminar""
