

NEWS OF THE WEEK

AUGUST 29, 2022

CBE IN THE NEWS

- [Updates regarding the COVID-19 vaccine](#)
- [Cleaning up – MIT Technology Review](#)

DEPARTMENT'S SEMINAR/EVENTS:

- **CBE Events**
 - **Summer Moo Mobile Parties 12:00-3:00 PM**
Outside Colburn Lab - next to facilities
(*Only 100 tickets available - 1st come, 1st served)
 - **Friday, Sep. 2**
Ticket Pick-up available on Sep. 1 from 8 AM-4:30 PM & Sep. 10 from 8 AM-2 PM in 237 CLB
- **CBE Seminar Series**
Prasanna Joshi, Vice President
ExxonMobil Technology and Engineering Company
Friday, September 9, 2022
10:00 AM in 102 CLB and via ZOOM: <https://udel.zoom.us/j/91314568641>
[Innovating Energy Solutions in a Net-Zero Future](#)
- **CCST Seminar**
Adam Holewinski, University of Colorado
Wednesday, September 14, 2022
10:00 AM in 366 CLB and via ZOOM: <https://udel.zoom.us/j/94195465880>
[Toward Understanding Mechanisms in Electrocatalytic Syntheses with Renewable Feedstocks](#)

OTHER DEPARTMENT'S SEMINAR/EVENTS:

- **Department of Philosophy Seminar**
Dr. Kieran Setiya, MIT
Friday, September 16, 2022 at 3:30 PM in 103 GOR
[Absurdity and Meaning](#)
Reception to follow

JOBS/RECRUITING

- **Gore**
Position: Polymer Scientist-223124
Job #: 492899
Location: Elkton, MD
Brief description: We are looking for an energetic, self-motivated Polymer Scientist to join our Core Technology team. In this role, you will have the opportunity to drive early-stage technical discovery to create new material capabilities which provide potential for Gore's growth. This role may involve leveraging external research, driving early-stage technical feasibility, advanced characterizations and/or development of fundamental understanding in ionic polymer materials.
- **Sanofi**
Position: Polymer Scientist-223124
Job #: R2658541
Location: Elkton, MD
Brief description: We are seeking a highly motivated and talented Co-op to join our Biologics Drug Product Development group. Our organization is responsible for integrated end-to-end drug product development in support of Sanofi's promising pipeline of biotherapeutic and gene therapy products. As part of our talented team, you will be exposed to the Research-to-Development transition by participating in drug product development programs and will contribute to the development of development platforms for enzyme therapies, monoclonal antibodies, viral gene therapies and other biologic modalities.
- **Princeton University**
Position: Assistant, Associate or Full Professor, Chemical Engineering
Req. ID#: D-23-CBE-00002
Brief description: The Department of Chemical and Biological Engineering at Princeton University seeks outstanding applicants for a tenure-track appointment at the Assistant Professor level, effective as early as September 1, 2023. While the main focus is at the Assistant Professor rank, exceptional candidates for Associate and Full Professor rank will be considered. The search is open to candidates specializing in any area of chemical engineering.

Available positions can be found on the [Chemical & Biomolecular Engineering opportunity website](#), so be sure to check it regularly.
