

## An Introduction to the Technology Transfer Process at UD

Frances Galvin, Senior Technology Transfer Associate, will present information about how invention disclosures are managed at UD from the conception of an innovation through commercialization, via a license to an existing company or a startup. There will also be detailed information about what types of innovations are patentable, the requirements for patentability and the timeline for filing patent applications. There will be time for questions and answers.

This seminar is appropriate for anyone who is interested- students, postdocs and faculty.

**Thursday, Feb. 9. 2023 11:00- noon. CLB366 and Zoom**
