NEWS OF THE WEEK

OCTOBER 23, 2023

CBE IN THE NEWS

- Congratulations to Professor Thomas H. Epps, II, on his selection as one of two recipients of the 2023 Minority Affairs Community's Eminent Chemical Engineers Award

DEPARTMENTS SEMINAR/EVENTS

- **CBE Seminar Series**
  - Peter Beltramo, University of Massachusetts Amherst
    - Friday, October 20, 2023 at 10:00 AM in X22 Classroom
  - or via Zoom: https://juliet.zoom.us/j/97166943956
  - Title: "Open-Ended Discussion on Dynamics and Assembly, from Biomembranes to Ordered 3D Materials"

- **Ging Sun, Texas A&M University**
  - Friday, November 3, 2023 at 1:30 PM in 366 CBCL
  - "How to Make Connections"
  - DSC20025 required

- **CN2 Seminars**
  - Dr. Kostyantyn A. Ramya, Technische Universität München
    - Wednesday, October 25, 2023 at 9:00 AM in 366 CBCL
  - "Structural and Dynamics of Biomolecules in Complex Structural Materials: Insights from Rheology, Scattering, and Microscopy Modeling"

OTHER DEPARTMENTS SEMINAR/EVENTS

- **Biochemistry Seminar**
  - Stephen Hyland (Grimes Lab) & Angel DÓliveras (Mugridge Lab)
    - Monday, October 30, 2023 at 4:00 PM in 29 BLI
  - "Blue Herb Biochemistry, Student Seminar Series"

- **Physical Chemistry Seminar**
  - Dr. Marcos Koutomis, University of Michigan
    - Monday, October 30, 2023 at 4:00 PM in 29 BLI
  - "At the Crossroads of DW and Protein Modelling"

  - "Citation Management with EndNote Online"
    - If you’re looking for a quick and easy way to format citations, reference lists and bibliographies, turn to the citation tool EndNote Online. It organizes and stores your references, then creates properly formatted bibliographies in a wide variety of citation styles.

  - During this inverson workshop on Thursday, October 26 at the UH Library, learn how to export reference formats from the sciences in the databases, such as PubMed and the Web of Science, to save yourself time and frustration. You’ll discover how to organize and share your references and format citations and bibliographies. You’ll also explore the site White White You write, which automatically integrates preformatted citations and bibliographies into Microsoft Word.

  - William Simpson, librarian for math, engineering and the physical sciences, will lead the workshop.

    - This workshop is open to UD students, faculty and staff. It is co-sponsored by the Graduate College. For more information on the citation tool, check out the Library’s EndNote Online research guide.

    - Registration is required as seating is limited. The workshop will not be recorded.

  - Contact William Simpson if you have any questions prior to the workshop.

  - DSC20025 required

JOBS/RECRUITING

- **Michigan, Ann Arbor**
  - Position: Faculty, Operator: Battery/Energy Storage: 10 to 15 Years/Tenure Track
  - Brief description: The Department of Materials Science and Engineering (MSE), College of Engineering, University of Michigan, invites applicants for a tenure-track assistant professor faculty position in the area of materials for batteries and energy storage. Emphasis will be placed on applicants with a record of outstanding experimental and/or computational research accomplishments in design, prediction, synthesis and/or characterization of materials for batteries and energy storage.

- **The University of New Mexico**
  - Position: Assistant Professor
  - Brief description: The Department of Chemical and Biological Engineering at the University of New Mexico (UNM) is seeking applicants for two open rank tenure-track faculty positions. We seek innovative and creative researchers whose teaching and research interests span broad areas of chemical engineering. Applications are encouraged from researchers working in, but not limited to, energy and sustainability, bioengineering, nanomedicine, materials science as well as process engineering.

- **Oregon State University**
  - Position: Assistant/Associate/Full Professor
  - Brief description: The Department of Chemical Engineering and Materials Science at Oregon State University (Oregon State or OSU) is seeking candidates for a position at any level. The successful candidate will be expected to develop an active, externally funded research program and to teach a variety of courses in chemical engineering and materials science.

- **University of California, Santa Barbara**
  - Position: Past Leland Professor of Chemical Engineering
  - Brief description: The College of Engineering School of Chemical Engineering at the University of California, Santa Barbara is seeking applications as part of an external, open-ended search for a tenured Associate Professor, Associate Professor, or Full Professor position. The starting date is negotiable. Review of applications will begin on January 1, 2024.

Available positions can be found on the Chemical & Biomolecular Engineering opportunity website so be sure to check it regularly.
