

SEP 06 | MARIAN HETTIARATCHI

SEP 20 | EVAN JAHRMAN

OCT 11 | DIMITRIS VLASSOPOULOS

OCT 18 | SHUWEN YUE

NOV 15 | SRIKANTH PILLA

DEC 06 | YEONGSEON JANG

FALL 2024 SEMINAR SERIES

10:00 AM IN 102 COLBURN LAB

SEP 06

MARIAN HETTIARATCHI

Assistant Professor
University of Oregon

“Design of Affinity-Controlled Protein Delivery Vehicles for Tissue Repair”

SEP 20

EVAN JAHRMAN

Research Scientist
National Institute of Standards and Technology

“New Tools for Catalysis at NIST-operated X-ray Beamlines”

Co-sponsored by CPI

OCT 11

DIMITRIS VLASSOPOULOS

Professor
University of Crete

“Exploring the Role of Macromolecular Loops in Tailoring the Properties of Soft Materials”

OCT 18

SHUWEN YUE

Assistant Professor
Cornell University

“Physics-inspired Machine Learning Potentials for Thermodynamic and Dynamic Properties of Electrolyte Solutions”

NOV 15

SRIKANTH PILLA

Professor & Director of Center for Composite Materials
University of Delaware

“Atoms to Autos: Bridging Fundamental Science with Applied Engineering to Enable Sustainable Technologies Transforming the Mobility Industry”

Co-sponsored by CPI

DEC 06

YEONGSEON JANG

Assistant Professor
University of Florida

“Engineering Globular Protein Vesicles for Protein-Powered Synthetic Minimal Cells”
