

FROM RESEARCHER TO LEADER

Leadership Skills Workshop

Are you a graduate student or postdoc ready to take your expertise beyond the lab? Learn the leadership skills necessary to be successful in the next step of your career path. Unlock your leadership potential as you transition to leadership positions in industry, academia or national labs.

Through interactive modules and case studies, you will learn how to:

- ✦ Effectively motivate others to follow your lead
- ✦ Leverage different types of rewards and influence tactics based on the needs of your followers
- ✦ Apply motivation theory to individual who are motivated in unique and different ways
