Unlock your leadership potential as you transition to leadership positions in industry, academia or national labs

JOBS/RECRUITING

- **GU-NIST**
Position: Postdoctoral Fellowship
Brief description: unique fellowship provides a dynamic environment for cutting-edge research, professional growth, and unparalleled collaboration opportunities. As part of this fellowship, the postdoc will work on a research project focused on the synthesis and characterization of polymer gels and networks and their mechanical characterization. This position offers numerous advantages compared to a typical postdoc role. Interested candidates can send their CV to [Dr. Nagarjuna Gavvalapalli](#)

All available positions can be found on the Chemical & Biomolecular Engineering [opportunity website](#), so be sure to check it regularly.
