JOBS/RECRUITING

- **Eli Lilly**

Position: [Post-Doctoral Scientist](#)

Brief description: We are seeking an ambitious post-doctoral scientist, with strong research and communication skills, in advancing .co-formulation drug product. This role focuses on translating mechanistic insights at the molecular level into robust platform formulation strategies that enable the next generation of biological drug products.

All available positions can be found on the Chemical & Biomolecular Engineering [opportunity website](#), so be sure to check it regularly.
