

# Advancing Flow Cytometry: New dyes & Cocktail services

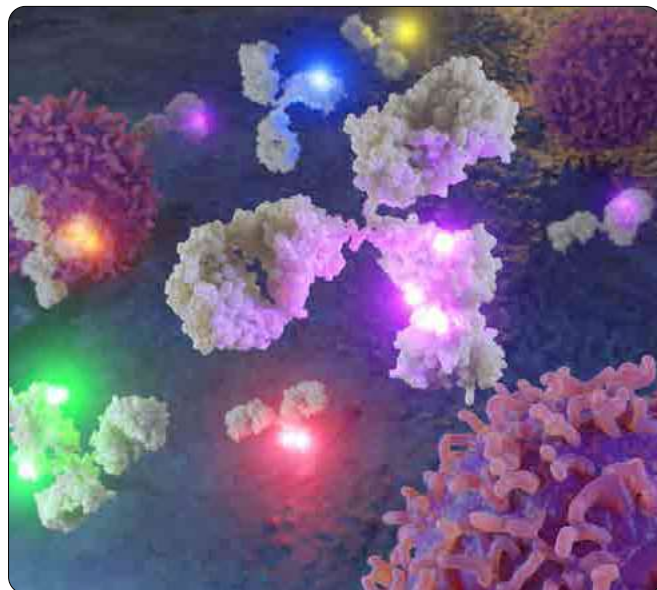

Wednesday, September 17th at Noon - 1pm  
Room 140 APB Innovation Center

Join us for an Overview of BioLegend's Cutting-Edge Reagents and Tools for High-Parameter Flow Cytometry Research! This session will highlight our newest fluorophores, ready-to-use antibody cocktails, and custom panel design capabilities to help streamline your experiments.

**SPECIAL OFFER!!** BioLegend is providing 50% off small vials for testing during the upcoming University of Delaware Flow Core's Flow Cytometry Workshop in October.

Jenna Karras, PhD  
Technical Applications Scientist II
